

Verrerie et règle de vie en chimie

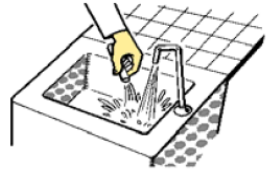

a) Verrerie

b) Comportement en salle de chimie.

Comportement en salle de chimie				Manipulation des produits chimiques			
							
Porter une blouse	N'encombrer pas les passages	Manipuler toujours au-dessus de la table	Manipuler le matériel délicatement	Tubes tenus entre pouce et l'index, près de l'ouverture	Étiquette opposée au côté verseur	Ne pas diriger un récipient vers le visage	Tenez-vous droit. Attacher vos cheveux

Rangement du plan de travail

		
Vider les solutions (sauf consigne contraire)	Nettoyer le plan de travail	Laver-vous les mains
